OBJECTIVE

"With over 1 year of experience as a frontend developer, I specialize in building dynamic, responsive web applications using React.js. I focus on delivering high-performance, user-centric solutions and am currently expanding my skills in backend technologies like Node.js and MongoDB. I aim to transition into full-stack development to contribute to impactful projects."

EXPERIENCE

Frontend Developer

 Kothari Tech

Aug 2023 – Present

- Designed, built, and maintained **high-performance web applications** using **React.js**.
 - Developed **reusable components** and **libraries** to enhance application **modularity** and **maintainability**.
 - Collaborated closely with **UI/UX designers** and **backend developers** to translate functional requirements into effective **user interfaces**.
 - Wrote **clean, maintainable code** adhering to **industry best practices** through rigorous **code reviews**.
 - Implemented performance **optimization techniques**, such as **code splitting** and **lazy loading**, to improve application loading speed and efficiency.
 - Conducted **unit and integration testing** to ensure application reliability and to maintain **high-quality standards**.
 - Championed **web accessibility (WCAG)** and **SEO best practices**, enhancing **user experience** for all users and improving **search engine rankings**.
 - Actively participated in **sprint planning** and **retrospectives**, contributing to **continuous team improvement** and **project delivery efficiency**.
-

TECH SKILLS

- **Frontend Technologies:** HTML, CSS, JavaScript, React.js, TypeScript, Tailwind CSS, Bootstrap
- **Backend Technologies:** Node.js, Python
- **FrameWork:** Express.js, Next.js, Django
- **Databases:** MongoDB, MySQL
- **State Management:** Redux Toolkit, React Context API
- **API Development:** RESTful APIs
- **Version Control:** Git, GitHub
- **Additional Skills:** SEO, CI/CD

PROJECTS

Ecommerce

Technologies: React.js, Redux, Material UI, Node.js, Express.js

- Developed a **responsive eCommerce platform** with **React.js** and **Redux** for state management.
 - Implemented **RESTful APIs** with **Node.js** and **Express.js** for seamless **data interaction**.
 - Integrated **JWT authentication** for secure user sessions and **Stripe API** for payment processing.
 - Created a user-friendly interface using Material UI and established a **CRUD system** for product management.
 - Conducted testing with **Jest** and **React Testing Library** to ensure application reliability.
 - Boosted **user engagement by 30%** and managed over **1000 transactions daily** with high reliability.
